

## Product Data Sheet

### Product Description

- Sodium Chloride produced by underground mining, mechanical production or solar evaporation.
- Conforms with the American Water Works Association Standard B-200-12.
- Certified by the National Sanitation Foundation to NSF Standard 60.

### Production Location

Lyons, Kansas - USA

### Admixture

The Resin Clean® is a proprietary additive used for water softener resin maintenance to help prevent buildup and clean resin beads on a day to day basis.

### Method of Analysis

American Society for Testing and Materials Procedure E534. All other testing is from Compass Minerals internal quality control procedures.

### Physical Properties

- Bulk Density - 69 lbs/ft<sup>3</sup>

*Typical and specifications are based on the previous years historical data:*

#### Chemical Analysis

Constituent			Typical	Specification
Sodium Chloride	NaCl	(%)	99.88	99.80 Min

#### Packaging

#### Palletization
